Optimize Operations with Sapphire Profits

Smart solutions for Attendance, AI,
Patrol, Inventory & Orders

Noproxy

A smart attendance system combining biometric, GPS, and mobile login to eliminate time fraud and payroll errors.

Key Features :

- GPS & biometric login
- Mobile access
- Shift tracking
- Payroll sync

Noproxy AI

An AI-powered, hardware-free attendance tool that runs on any browser. Offers intelligent punch validation and instant notifications without installations

Key Features:

- Browser-based; No machine needed
- Face recognition attendance
- Payroll and absenteeism reporting

Quick Stock Pro

Manage your stock across locations with real-time visibility and smart alerts. Designed to prevent shortages, overstocking, and stock-out errors.

Key Features:

- Physical stock audit
- Low stock alerts
- Unique Barcodes for each box
- Reports & analytics

Quick Patrol

Digitalize your guard patrolling using QR/NFC checkpoint scans and live route monitoring. Helps maintain strict compliance with automated reporting and alert

Key Features:

- QR/Senor based scans
- Guard Round Reports
- PDF reports
- Missed scan alerts

Patrol Supervisor

Supervisors get a live view of patrol activities, compliance alerts, and guard performance. Ideal for multi-site security managers needing control and visibility

Key Features:

- Real-time view
- Shift compliance
- Performance logs
- Supervisor panel

Quick Order

Allow your clients to browse products and place orders directly via WhatsApp – no app needed. An easy-to-use mobile ordering system for instant engagement.

Key Features:

- Digital catalog
- 1-click order
- Order updates
- No app required
